

# Mechanical-Purge Guns

Best material mix on the market

## Fusion Mechanical Purge (MP) Gun – Designed for superior mixing

- Handles from very low output, thin mil applications to large, high flow, high-output applications just by changing the mix module and tip
- Easy mechanical cleaning – mix modules and tips are cleaned with a drill bit
- Smoother finish and better atomization
- Offers more advanced features than all other mechanical-purge guns combined
- Long-lasting mix modules provide excellent mixing
- Advanced mix module and tip design provides excellent mix and material properties, and significantly reduces repair and maintenance costs
